

Ben Carmack, E.I.T.

DOB: 22-Jun-1988

EXPERIENCE

2014 - Present Structural Services, Inc. Louisville, KY

Engineer in Training

Structural Services is a consulting engineering firm that provides structural engineering design services to owners, architects and general contractors. Design services are associated with design-build, design-bid and value engineering.

2009 – 2014 Renaissance Design Sellersburg, IN
Build, Inc.

Engineering Technician

Renaissance Design Build, Inc. provides civil and architectural engineering services in a variety of areas including commercial and institutional building design and renovation, site development, permitting, subdivision design and layout, storm water/drainage design, road rehabilitation, ALTA surveys, boundary surveys . As engineering technician responsibilities included field measuring/surveying and documentation, shepherding projects through governmental approval processes (local, state, federal), courthouse research, code research, road and hydrological design and calculations, performing COM Checks, CAD drafting and land surveying calculations.

2008 Floyd County Surveyor New Albany, IN.

Surveying Intern

The County Surveyor is an elected office of Floyd County, IN, responsible for perpetuating Section and Grant corners, maintaining survey records, overseeing regulated drains, assisting the Plan Commission and helping maintain the GIS. Intern's responsibilities included helping local surveyors, developers, realtors and citizens find information and cataloging corner perpetuation information in a database. I also performed fieldwork for the County Surveyor's private survey practice, separate from government work.
